

Cosmetic Laser Treatments

Laser Hair Removal

The Light Sheer Diode® Laser is the gold standard in laser hair removal. Laser hair removal is an alternative to depilatories, shaving, threading, tweezing and waxing. Lasers can remove hair faster, more comfortably and more reliably than many other methods. Depending on your own personal needs, most body areas can be treated.

Laser Spider Vein Treatments

For the treatment of facial capillaries, spider veins or areas with matted veins, we use the Nd Yag technology. The light impacts the vessel and coagulates the blood, effectively shutting down the vessel. The laser is harmless to the rest of the skin. More than one treatment may be required for certain veins.

Heights Skin Enhancement Package

This package will truly enhance your skin's appearance. It includes three sessions of Intense Pulse Light combined with microdermabrasion over a period of three months. This package includes a customized kit of products especially for your skin type.

Important Information

We request that you disclose any new medical conditions and/or medications you are taking, as some services may be contraindicated. Also, inform the physician or technician about any recent exposure to natural sunlight or tanning beds.

Consultations

The Heights Laser Centre offers complimentary consultations with our experienced aesthetic laser team. We are committed to educating and helping you achieve the best possible results.

Appointments & Cancellations

Punctuality is greatly appreciated. To avoid being charged for your treatment, we require a minimum of 24 hours notice to cancel or reschedule your appointment. Our staff will always give a 24 to 48 hour reminder call for any appointment.

Gift Certificates

Heights Laser Centre Gift Certificates for all services and products are available.

Monday – Friday 9:00 am – 7:00 pm
Saturday 9:00 am – 3:00 pm

“Beauty...simply elevated at the Heights”

At the Heights, our medical aesthetic approach is to help restore, improve and maintain your skin's natural health and appearance.

The Heights medical aesthetic team works together to educate you on the procedures and treatments suited to your own individual needs.

All treatments begin with consultation and analysis to achieve the best customized choices for you. We will design at-home skin care treatments to enhance and maintain your results.

Purify & Renew

Glycolic Peels

This 20 – 30 minute treatment can be performed on all skin types to brighten dull looking skin immediately. It stimulates natural collagen production which results in younger looking skin. Many clients have this treatment on the day of an event to give their skin a fresh, healthy glow.

Microdermabrasion

Microdermabrasion is a simple, convenient procedure which is popular with clients showing early signs of aging and sun damage. Those with minimal superficial scarring and hyperpigmentation can also benefit from this treatment. It is non-invasive, painless and has no downtime.

Vitalize Peel®

The Vitalize Peel® from Skin Medica brings the benefits of alpha hydroxyl, beta hydroxyl and retinoic acids in a unique blend to create one of the strongest and most effective peels. The Vitalize Peel® has been clinically proven to help pigmentation fade, to stimulate collagen production and to help control active acne.

Enhance & Refine

Botox Cosmetic®

Botox Cosmetic® is a purified protein that is given as an intramuscular injection. It temporarily inhibits the muscle from contracting, and consequently reduces the appearance of wrinkles and fine lines. This non-surgical treatment is safe and virtually painless with no downtime. The procedure takes only a few minutes, with results lasting up to six months.

Juvederm®

Juvederm® is an injectible which is made of a hyaluronic acid, a natural substance found in the body. Juvederm can be used for smoothing wrinkles and folds. It can also be used for lip enhancements to create a fuller more sensuous look. No pre-testing is required. In the skin it creates volume, resulting in a healthier and more vital appearance. The results are immediate and treatments take less than one hour.

Restylane®

Restylane® is an injectible that used to reduce lines and wrinkles. Create the appearance you desire by enhancing the fullness of your lips. Results are immediate and treatment takes less than one hour.

Rejuvenate & Clarify

IPL™

Intense Pulse Light™ is light therapy to the skin. It is a non-invasive treatment that erases skin damage without disruption of the skin's surface. IPL™ can simultaneously treat a wide range of facial concerns safely and effectively. These include damaged capillaries, skin discoloration, age spots, sun damage, freckles, and rosacea.

Cosmelan Depigmentation Treatment

The Cosmelan Depigmentation Treatment offers several major advantages over other depigmentation treatments. The treatment is suitable for all skin types and can be performed at any time of the year. The treatment improves the texture of the skin and has a very high safety margin. With minimal down time and excellent safety, it is now possible to rid yourself of pigmentation. Ideal for clients with melasma or acquired pigmentation.

Hyperhydrosis

Hyperhydrosis is a medical term for excessive sweating. This is an unpleasant and inconvenient condition which can be controlled with Botox®. A series of tiny injections block the neurochemical activity of the nerves which cause the excessive sweating.
